Considering other various auto events this weekend, we still had 75 drivers participate in the 11th Keno Hillclimb. Chris Korntved maintained his title as King of the Hill for the second year in a row. He broke his hill record from last year with a 1:38.37. Congratulations Chris and keep up the good driving! Also maintaining her title as Queen of the Hill was Mary Callaway for the last three hills. She had a 1:56.05 and she wasn't even in her own formula. Congratulations Mary!

We had many hill records broken this year. Twelve class records were broken which means either the cars are faster or the driving is improving. Lets just say both. We had 23 drivers who were under the two minute mark which is more than ever before.

We want to thank all the entrants from South Western Idaho Sports Car Club, Eastern Idaho Sports Car Club, Redwood Sports Car Club, Siskiyou Sports Car Club, Loose Mini's, Reno Corvettes, SCCA, Porsche Club of America as well as many others who helped to make the 11th better than ever. We also want to thank all the non club members who helped out at the start line and at the checkpoints. While we are thanking everybody we especially want to thank Midtown Datsun and Concrete Products Inc. for sponsoring the Hill. They were very generous for the support and cooperation in this years Hillclimb.
