

Teton Hillclimb at Grand Targhee Ski & Summer Resort
September 16 & 17, 1995

We finally got cars racing late on Saturday morning and everything got better after that. The first annual Teton Hillclimb was run on the two lane, paved access road to the Grand Targhee Ski area. The course is 1.95 miles long with approximately 8 corners, (some of them taken foot to the floor !), climbing approximately 500 feet to finish at an elevation of 8020 feet. The ski area provided excellent lodging and food facilities, and the racers provided excellent racing on a fast course. Both newspapers from Jackson Hole sent reporters to cover the event. We had 33 drivers from Boise, Billings, Bozeman, Missoula, Salt Lake City, Pocatello, Idaho Falls, Driggs, Jackson, Worland, and Oregon and Illinois. The course greatly rewarded smooth driving and high horsepower, as the fastest times were set by fendered cars !
