

BUCK'S LAKE HILLCLIMB
August 22 & 23, 1987

Just a final note along with the results. The Honey Lake Hillclimb Associates wish to thank all of you for attending our event. We hope you had a good time and enjoyed the hill. We also thank you again for your generous help with our insurance premium.

As last year's event at Janesville Grade created class records, so did this event. All of you winners now hold the hill record for your class.

Using 1.8 miles as a basis for speed calculation, if my math is right, the T.T.O.D. average speed was 67.194 miles per hour!

Some of the things that went on are recorded below for those of you who missed them.

You might ask Deke Dent about a certain incident Saturday at Station #2, or ask Craig Angel. Talk about a dirty old man, wow!

Saturday night some of you missed a great meal and rowdy good time at Boone's. That may become a regular event.

We're sorry about the Ott's Ferrari, and glad the damage wasn't worse.

By the way, Mike Christy and Joan Riggs may be the holders of a record that may never be broken. In two years of timing our hillclimbs, they have recorded 325 straight runs without losing a single time! Thanks guys!

Those from the Forest Service who checked us out were very impressed by our organization, and gave us the go ahead for next year.

We'll be in touch with the Plumas County Chamber of Commerce and Road Department to make sure they have no problems either. We want to thank you for your cooperation in observing the no smoking signs, and the super job of cleaning up after the event.

Again, from all of us of the Honey Lake Hillclimb Associates, thanks!

Mike Christy
Dan Harrison
Wayne McGaughy

Mike Cupp
Bob Lacey
Steve Moore

Deke Dent
Jim Martin
John Riggs
